

USG SHEETROCK® BRAND FAST FINISH SYSTEM INCREASES PRODUCTIVITY

The revolutionary USG Sheetrock® Brand Fast Finish System is redefining the industry's meaning of fast by allowing finishers to do more work with less. Ideal for new construction, tenant improvement and multi-family, this innovative system reduces the number of steps and amount of time it takes to finish walls. And while the work time may be cut, rest assured that the high quality you demand remains the same.

The USG Sheetrock® Brand Fast Finish System is comprised of:

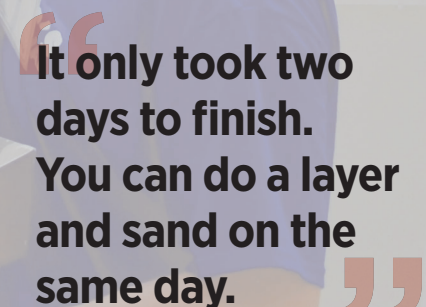

- USG Sheetrock® Brand Fast Finish Automatic Taping Tool
- USG Sheetrock® Brand Fast Finish Joint Compound
- USG Sheetrock® Brand Fast Finish Paper Joint Tape
- USG Sheetrock™ Brand Fast Finish Quick-Drying Adhesive
- USG Sheetrock® Brand Paper-Faced Metal Corner Bead

Based on actual in-field studies conducted by Ducker Worldwide—a premier consulting and research firm—contractors realized time savings up to 50%.

These time savings benefits translate across all trades involved in the finishing process—from the contractor to the building owner. Contractors will complete more jobs in a shorter amount of time, allowing for reallocation of work while earlier tenant occupancy is a benefit for the building owners.

At USG, our goal is to deliver the most innovative building products and services by bringing new levels of performance to the spaces where people live, work and play. And the USG Sheetrock® Brand Fast Finish System enables you to deliver that in the most efficient and productive way possible.

A graphic featuring a large, stylized quote mark on the left and right sides, framing the text. The text is in a bold, sans-serif font.

“It only took two days to finish. You can do a layer and sand on the same day.”

Drywall Contractor, Illinois

“I would use this tool to incent my guys. Same pay rate and get more done.”

Drywall Contractor, Illinois

KEY PRODUCTS

USG Sheetrock® Brand Fast Finish Automatic Taping Tool—Designed for efficiency, this taping tool offers accurate control and spread of adhesive to specially engineered joint tape.

USG Sheetrock® Brand Fast Finish Joint Compound—Ready-mixed compound ideal for finishing drywall joints, fasteners and corner reinforcement trims.

USG Sheetrock® Brand Fast Finish Paper Joint Tape—Provides exceptional wet strength, resists stretching, wrinkling and other distortions, lies flat and resists tearing under tools.

USG Sheetrock™ Brand Fast Finish Quick-Drying Adhesive—Premium adhesive for use with automatic taping tool to embed joint tape over wallboard joints.

USG Sheetrock® Brand Paper-Faced Metal Corner Bead—Superior resistance to edge-cracking and chipping despite the stresses of normal building movement and everyday wear and tear.

“This system has consistently enabled us to reduce our cycle time to less than two full days rather than the five or six we typically need.”

Drywall Contractor, Indiana

KEY BENEFITS

Beyond productivity, other benefits include:

- High-quality, Level 4 finish
- Opportunity to reallocate labor
- Predictable scheduling year round
- Less job visits to finish walls
- Less material to stage and apply

“I see advantages for both small and large jobs; for small jobs we can finish sooner because we can do more in the same day and for large jobs I could have more guys in the crew to finish the job sooner.”

Drywall Contractor, California
